<u>Let's Work</u>

Global Summit private limited is a multi-national technology company specialized in internet-related services and products in the hospitality field.

They are looking for a partner who can help them to build best in-class application called **"Let's work"** to facilitate their customers to book rooms for trainings, conferences and events.

The application must aim freelancers who frequently conduct workshop, trainings, and conferences - help them to book suitable venue based on their preferences.

The application must simplify tasks to users to identify and book venue that meets their requirements. It must create a personalized experience for each user, through recommendations, referral discounts on referring friends and social media feeds.

Global Summit private limited is also planning to onboard technical team who can play role of admin to onboard new partners who would like to use this new platform to grow their business and alter the existing venue, room and partner details as per availability.

The application should be safe, secure to use, and should be accessible anywhere and anytime.
